Dear Sheriff Pulkrabek:

I am writing on behalf of Taleb Salameh (DOB: 12/06/84). I have been providing individual psychotherapy since 10/22/09 to help treat Mr. Salameh's concerns with depression and anxiety. Although the incident that led him to treatment was an altercation in which he struck another person, at no time during his treatment with me has he shown any indication that he poses any threat to anyone. From the first session, he has denied experiencing any aggressive impulses toward himself or others.

Mr. Salameh is not showing any indications of impulse-control or substance-abuse problems. He has reported feeling in a significantly improved mood for several months now, and I can see no reason that he not be allowed to obtain a permit to own firearms. He has reported that he is interested in being able to go on hunting outings with friends.

I hope this information is helpful. Please do not hesitate to contact me if I can be of further assistance in this matter.

Cordially,

Gregory L. Gullickson, Ph.D.
